What can you expect

- Have fun while working with a dynamic and multicultural team
- Possibility to bring in your own ideas and shape the project
- Work creatively with tools and share knowledge with people who are eager to learn
- Cooperate with other projects and partners and meet many people
- Free lunch, affordable accomodation pending availability and a bicycle

About Makerspace Lesvos

We are a small team of multicultural and multinational people who love to create. We repair, build and maintain for the community and with the community.

Makerspace Lesvos aims to better the quality of life of refugees living on Lesvos by facilitating technical solutions to commonly faced problems. We help with the repair and replacement of phones, bikes, clothes, and other technologies at our workshops. Self-empowerment and education are central to the organization's mission. Many of the volunteers in the organization are part of the refugee community itself.

Send your application to us via email to volunteering@makerspace-lesvos.org or reach out to us on social media https://www.instagram.com/makerspace_lesvos/ <https://www.facebook.com/makerspace.lesvos>
